

April 16, 1985

TO: Coal File, Inspection and Enforcement File
FROM: David Lof, Mining Field Specialist 
RE: Genwal Coal Company, Crandall Canyon Mine, ACT/015/032, #7,
Emery County, Utah

On March 22, 1985, I conducted a partial inspection at the above mentioned mine site. The purpose of the inspection was to determine if the operator had deliberately breached the berm between the generator and truck turn around again since my March 20, 1985 inspection. I did not find any indications that the berm had been breached since my last inspection.
